

North Tyneside Council

ADVANCED MANUFACTURING

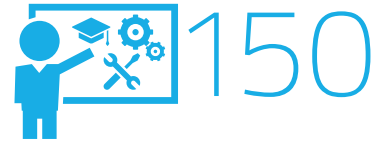

NORTH TYNESIDE IS THE PERFECT LOCATION FOR ADVANCED MANUFACTURING BUSINESSES AND IS AT THE HEART OF AN ESTABLISHED HUB, WHICH HAS ALREADY ATTRACTED SOME OF THE BIGGEST MANUFACTURERS IN THE WORLD.

The borough is part of a region that boasts a highly skilled, productive workforce, with some of the lowest attrition rates in the country, as well as an abundance of suitable spaces that offer exceptional connectivity. It's easy to see why companies like Formica, SMD, Pryme Group, Siemens, Nissan, and Caterpillar have chosen to make North Tyneside and the wider North East their home.

126,000

strong workforce
in wider manufacturing

150
advanced manufacturing courses offered by the region's five universities and six colleges

250 ACRES

of space available at low cost development sites
